### **Meet Boots!**

Boots a.k.a. Bootsy is approximately 10-years-old. He is a neutered male. And so handsome. In fact, he never takes off his tuxedo and is always ready for any adventure. I found him at our old house. He has lived in Alta Sierra His whole life. He has moved several times and is adaptable to a new environment. He gets along well with other cats. There has been a break up in the family and unfortunately neither of us can take him to our new places. As you can see he is a beautiful cat. He is well behaved. He enjoys the outdoor living and catching critters. He also likes a soft couch to take his naps and sometimes you will find him laying on his back in a really cute position. He is not a lap cat or a cuddler but sometimes he does enjoy sleeping at the foot of the bed.
