Meet Timber!

Due to unfortunate circumstances we need to re-home our dog Timber. He is a 6 1/2 year old neutered AKC Purebred chocolate lab. Timber was raised as my service/emotional support dog when I got out of the military. He walks great on a leash, knows several commands and fully house trained. He is truly a great dog but our growing family and busy lives have made Timber extremely unhappy and he needs to be in a home where hes the only dog and gets all the attention. We have spent 3 years trying to make him work in our home, we brought a trainer into our home and fenced off a section of our yard just for him but the restrictions we have put in place to keep our other dogs and daughter safe have diminished his quality of life. Timber saved my life and now its my turn to save his. All he wants in life is someone who can be his new best friend and play catch with him. Please reach out to me via phone at 530-575-6364 or email r.reynolds380@outlook.com and we are located in Alta Sierra if you have any questions or would like to meet Timber.
